TELEPHONE REFERENCE GUIDE

TELEPHONE PROBLEMS

If you have ANY problems with your telephones, need telephones moved, need additional features, or would like training, please call the Telephone Administration Section at 535-7272.

LONG DISTANCE

Remember there is a cost for all long-distance calls and that department heads review the calls made by their employees. Long distance calls are billed back to each department.

LONG DISTANCE with a Telephone Access Card

For LONG DISTANCE

Dial "9" then "1", then the area code and number.

Listen for a "Fast Busy" tone.

Enter Your Access Code from the front of your Telephone Access Card.

Press "B" (the 2 button) for Business calls or "P" (the 7 button) for Personal calls.

Example: If your access code is "98765"

Business: 9 1 801 123 4567----98765 2

Personal: 9 1 801 123 4567----98765 7

LONG DISTANCE without a Telephone Access Card

For "IN STATE" LONG DISTANCE dial "9", dial "1", dial "801" or "435", and then the normal 7-digit number.

For "OUT OF STATE" LONG DISTANCE dial "9", dial "1", area code, and the normal 7-digit number.

DIRECTORY ASSISTANCE

Since U.S. West now charges for directory assistance, it is important to use directory assistance only when it is necessary, i.e., the number is not in the telephone book, business card, etc. Directory assistance is billed back to each department.

For directory assistance to any location within the State of Utah, dial 9-1-555-1212.

For directory assistance within the city, dial 9-1411.

For any location outside the State of Utah, dial 9-1 (Area Code of location in question) and 555-1212.

OPERATOR ASSISTANCE

To reach a U.S. West operator, dial 9-0.

To reach a long-distance operator, dial 9-0-0 (the second 0 should work at your home as well).

INSTRUCTIONS FOR ELECTRONIC (MULTIPLE BUTTON) TELEPHONES

CALL FORWARD

Allows you to program your telephone so calls to your extension will ring at another number. This feature is used when you do not want to be interrupted or you are away from your desk. Some telephones have automatic call forward which forwards the calls if the telephone is busy or is not answered within 3 rings.

HOW TO USE

Without lifting hand set:

1. Press Call Forward key (light will flash).
2. Dial number where call is to be forwarded.
3. Press Call Forward key again (light will be steady, indicating that all calls have been forwarded).

NOTE: The person that you have your calls forwarded to can call you and give you your messages. To cancel Call Forward, simply press the Call Forward key and the light will go out.

CALL TRANSFER

Allows you to transfer a call to another number. This feature is used when someone has reached you by mistake or they wish to talk to another person after they have talked to you.

HOW TO USE

With user on the same line:

1. Press Call Transfer key
2. Dial number
3. Announce the caller
4. Press Call Transfer key again
5. Hang up

A COMMON PROBLEM IS FORGETTING TO PRESS THE TRANSFER KEY THE SECOND TIME.

CONFERENCE

Allows you to bring additional people into your conversation.

HOW TO USE

1. Receive or place a call
2. Press Conference key
3. Dial the number
4. Announce to the person you are calling that you would like to setup a conference call.
5. Press Conference key again and all parties will be connected.

You can repeat this procedure up to 6 times.

CALL PICK UP

This feature is used when there are several telephones in one room and a person would like to answer someone else's telephone. The telephone needs to be programmed to tell them which other phones they can answer. Please call 535-7272 for further information.

NOTE: There is no light beside the Call Pick Up key.

RING AGAIN

This feature is used when you try to call someone and get a busy signal. This feature tells the system to monitor the status of their phone; and as soon as they hang up, it will ring your telephone. This feature can ONLY be used for telephones connected to the same PBX.

HOW TO USE

When you get a busy signal:

1. Press Ring Again key. (A steady light will come on).
2. Hang up

To respond:

1. Set will buzz (Ring Again light will flash). If you are busy, you may ignore this (no harm done).
2. Lift hand set
3. Press Ring Again key (the number will automatically be dialed for you).

To cancel (without lifting hand set):

1. Press Ring Again key (light will go out).

DIAL INTERCOM

Allows an electronic telephone to make a voice announcement to another electronic telephone. A typical use would be for a receptionist to "page" another individual. The receptionist's message will be heard through the speaker (not the hand set). The person that is called will hear the message without picking up their handset, but you must lift the handset to talk. If the number dialed is busy, the intercom light will come on and a brief ring will be heard. This is a special feature and not all electronic telephones have it.

HOW TO USE

To call someone on the intercom:

1. Press the Intercom key
2. Dial the special 2-digit intercom number
3. Give message
4. If the called party is on the line, the person calling will hear a continuation of ringing.
5. If the calling party wants two-way communications, they can pick up their hand set.

SPEED CALL

Used to call frequently called numbers by dialing 1 or 2 digits. This feature is limited to electronic phones that are equipped with a Speed Call button (please call 535-7272 for further information). The standard speed call capacity will allow for up to 10 numbers (8 digits long).

HOW TO USE

Lift hand set:

1. Press Speed Call key
2. Dial 1 or 2-digit speed code
3. Number is automatically dialed

To program:

1. Do not lift hand set
2. Press Speed Call key
3. Dial the 1 or 2-digit number you wish to use for speed code.
4. Key in telephone number
5. Press Speed Call key again

CALL PARK

To be used in conjunction with a paging system. This feature eliminates the need for a paged person to call the receptionist to have a call connected to their set. Instead, the receptionist who is giving the page can indicate a special number where the call is "parked"; then the paged person can go to any telephone, dial in that special parked number and the call will be automatically connected.

HOW TO USE

Using Park Key to Park Call:

With user on same line

1. Press the Park key
2. Dial number where call is to be parked (usually the person's normal office phone number).
3. Press Park key.

To retrieve:

1. Press Park key
2. Dial parked number (usually the person's normal office phone number).
3. Call is automatically connected

Using Transfer Key to Park Calls:

With user on the same line:

1. Press Call Transfer key or Conference key
2. Dial 171
3. Dial number where call is to be "parked"
4. Press Call Transfer key or Conference key again

To retrieve:

1. Lift handset
2. Dial 172
3. Dial number on which call is "parked"
4. Call is automatically connected

INSTRUCTIONS FOR STANDARD (SINGLE BUTTON) TELEPHONES

PERMANENT HOLD

Allows you to put your call on hold. This eliminates the need for putting your hand over the hand set if you wanted to talk privately with someone at your desk.

HOW TO USE

1. Press the switch hook quickly (one of the two buttons in the handset cradle).
2. Dial #4
3. Hang up

To retrieve:

1. Lift hand set

CONSULTATION HOLD

Allows you to put your call on hold and then call another number. The person on hold cannot hear the conversation that you have with the second party. Therefore, it is different than Call Transfer or a Conference Call.

HOW TO USE

1. Press the switch hook quickly (one of the two buttons in the handset cradle).
2. Dial the number of the party that you want to consult with.
3. Consult privately
4. Consulting party hangs up
5. You are automatically reconnected to your original call.

CALL FORWARD

Allows you to program your telephone so calls to your extension will ring at another number. This feature is used when you do not want to be interrupted, or you will be away from your desk. Some telephones will have automatic call forward in which calls will be forwarded if the telephone is busy or is not answered within 3 rings.

A COMMON PROBLEM IS CONFUSION BETWEEN CALL FORWARD, THE AUTOMATIC CALL FORWARD AND CALL TRANSFER. THEY ARE DIFFERENT.

HOW TO USE

Lift hand set:

1. Dial No. 1
2. Dial number where call is to be forwarded
3. Hang up

To cancel:

1. Dial #1

NOTE: The person that you have your calls forwarded to can call you and give you your messages.

CALL TRANSFER

Allows you to transfer a call to another number. This feature is used when someone has reached you by mistake or they wish to talk to another person after they have talked to you.

HOW TO USE

1. Press the switch hook quickly (one of the two buttons in the handset cradle).
2. Dial the number
3. Announce the caller
4. Hang up

CONFERENCE

Allows you to bring additional people into your conversation.

HOW TO USE

- 1. Press the switch hook quickly (one of the two buttons in the handset cradle).**
- 2. Dial the number**
- 3. Announce to the person you are calling that you would like to setup a conference call.**
- 4. Flash with the switch hook. 5. All parties are now connected.**

You can repeat this feature up to 6 times.

CALL PICK UP

This feature is used where there are several telephones in one room and a person would like to answer someone else's telephone. The telephones need to be programmed to tell them which other phones they can answer. Programming can be done by the Telephone Administration Section.

HOW TO USE

1. Lift your handset
2. Dial 13
3. Answer the call as you normally would.

RING AGAIN

This is a very handy feature to be used when you try to call someone and get a busy signal. This feature tells the system to monitor the status of their phone; and as soon as they hang up, your telephone will ring. This feature can ONLY be used for telephones at the same PBX.

HOW TO USE

If you get a busy signal:

1. Quickly press the switch hook (one of the two buttons in the handset cradle).
2. Dial 11
3. Hang up

When the other party hangs up:

1. You will hear a short burst of rings
2. Lift handset during ringing
3. Call is automatically connected

To cancel, lift hand set:

1. Dial 12
2. Hang up

CALL PARK

To be used in conjunction with a paging system. This feature eliminates the need for a paged person to call the receptionist to have a call connected to their set. Instead, the receptionist, while giving the page, can indicate that the call is "parked". The paged person can then go to any telephone and receive the call.

HOW TO USE

To park a call:

1. Lift hand set
2. Quickly press the switch hook (one of the two buttons in the handset cradle).
3. Dial 171
4. Dial number where you wish to park the call (use the telephone number of the person being called).
5. Hang up.

To retrieve the call:

1. Lift hand set
2. Dial 172
3. Dial the number on which the call is parked (should be your City telephone number).
4. The call is automatically connected.

Voice Mail

Voice Mail Setup

1. From your main telephone line, dial 6288. Or 535-6288 Your personal voice mail is setup on your extension.
2. When the system answers, it prompts you for your mail box number and then for a temporary password, enter (on the dial pad of your telephone) 72+ your extension.

2. Enter your password _____.
3. You are at the Main Menu.

You may now review messages that have been sent to you and send messages to other subscribers.

GENERAL TIPS

SALT LAKE CITY CORPORATION PHONE DIRECTORY

A few general tips that will help you as you use the system:

0 = HELP

- Ø Press 0 if you need help, more explanation, or want more options. (If you don't press anything, the system will repeat the previous options to help you.) Press 0-0 while in your mailbox to reach an attendant if one is available.
* = CANCEL or EXIT from a menu
- Ø Press * any time you want to cancel a previous entry or exit from a menu. When you exit from a menu, you "back up" to a previous menu. For instance, * in the Administrative Options menu takes you back to the Personal Options menu; one more * returns you to the Main Menu where you can start all over again! Pressing * while at the Main Menu disconnects you from the system.
= SKIP or BYPASS
- Ø Press # to bypass a subscriber's personal greeting with the exception on an extended absence greeting.
- Ø New subscribers begin using the system with Standard Prompts which prompt for only Review and Send at the Main Menu. Check Receipt and Personal Options are available to you, but you will not be prompted for them. As soon as you are comfortable with the basics, you will probably want to use Extended Prompts to hear prompts for all options. Rapid prompt can be used when you are very comfortable with the systems available options. If you have a Guest call IMS Customer Support at 535-7272.
- Ø REMEMBER that when a message has been erased, you cannot get it back.
- Ø Saved messages are "archived" for only 30 days at which time you will be given the opportunity to resave or delete the messages.
- Ø Playback Controls can be used by keying numbers:
 - Rewind 10 seconds 1
 - Rewind to the beginning 1-1
 - Pause or resume playback 2
 - Fast-forwards 10 seconds 3
 - Forward to the end 3-3
 - Play message slower 4
 - For envelope information 5
 - Play message faster 6
 - Increase the volume 8 normal, 9 louder
- Ø A maximum of 25 messages can be saved.
- Ø Unheard messages are saved for 15 days.
- Ø the maximum length for a message left by a caller is 10 minutes.
